

MOTION BY SUPERVISOR DON KNABE

April 27, 2010

The Los Angeles County Department of Beaches & Harbors is sponsoring a program called "Summer of Color". All 158 of our lifeguard towers are going to serve as Portraits of Hope temporary art installations from May through September. The first phase of tower transition will occur Sunday, April 25, from 7:30 a.m. to 12:00 p.m., when over 1,500 volunteers will be painting each of the hand railings at all 158 towers, with 11 persons working per tower.

Portraits of Hope was originally developed for seriously ill and physically disabled children. The 501 (c)(3) program conceives and develops one-of-a-kind motivational art projects that merge the production of dynamic public art works with creative therapy for hospitalized children and civic education for students of all ages.

Portraits of Hope projects have involved tens of thousands of youth and adults in high-profile civic collaborations that have visually and spectacularly transformed everything from airplanes, buildings, and the New York City taxi fleet to blimps, tugboats, and NASCAR racecars.
